

Waldron Natural History Observations

Your Name, date, and time of day:

Weather, wind, temperature:

Water: Clearness, waves, tide:

Did you collect plankton?:

Shore: Type of wrack, dead animals:

Land: Vegetation, slope facing, property owner:

Mark your location or path on the map:

1. What attracted your attention?

2. Describe what you saw. Please include as much as you like. If you're doing this regularly, please include negative data as well ("no wrack," for example). Include birds (Oystercatchers and Pelagic Cormorants in particular), mammals, fish, root rot, changes to the beach or cliff face, water in ditches, pollen, # of insects, etc. Add more sheets or whatever you need.

3. Did you take samples? What, why, and where are they now?

4. Send this sheet along with any samples, drawings, or photos to Julie who will copy and return to you. Data will be presented at P.O. board monthly. Let me know if it's okay to include your name.
